Record an observation

What is iNaturalist?

iNaturalist is a way for citizen scientists to keep track of the biodiversity in their community!

By contributing observations, you can help the Headwaters keep track of the life returning to the restoration site!

How It Works

1

Record your observations

2

Share with fellow naturalists

3

Discuss your findings

For an in-depth tutorial visit:

<https://www.inaturalist.org/pages/getting+started>

1

Download the App

- **Download the iNaturalist app from your phone's App store. It's free!**
- **Download either: iNaturalist for iPhone or iNaturalist for Android.**

Create an account

- Launch the app.
- Access settings by clicking the 3 bars in the top left, and choose from pop-up menu.
- Choose "Sign Up" on the login page.
- You will be prompted to create a username and password.
- Make sure to select the right time zone (Central Daylight Time).
- If you need help with this step please reach out!
- Your phone's GPS will need to be on for recording location.

Make an Observation

- Click the green circle with a plus-sign in the bottom right corner.
- You will then be asked to take a photo, choose an image, or other options.

4

Details of Observation

- Check that the Date, Time, and Location are recorded.
- If location isn't recorded, click in the location section right under Date/Time.
- Then search "Headwaters at the Comal"
- Click the check mark at the top right to back to details page. Click again to save your observation.

A screenshot of the 'Details' page in an observation app. The page has a white background with a grey header bar containing a back arrow, the title 'Details', a checkmark, and a three-dot menu icon. Below the header is a grey bar with a camera icon. The main content area is divided into sections: a section with a question mark icon and the text 'What did you see? View Suggestions'; a green highlighted section with an information icon and the text 'Name what you saw if you can, even if that's just "insect" or "bird," or just leave this blank. Others may help you identify it!' followed by 'GOT IT!' in green; a section with a clipboard icon and the text 'Notes'; a section with a clock icon and the text 'Mar 21, 2020' and '01:11 PM CDT'; a section with a location pin icon; a section with a globe icon and the text 'Location Visibility: Open'; and a section with a person icon and the text 'It is captive or cultivated' followed by an unchecked checkbox.

ID your Observation

- Now click on “What did you see?” right under your photo.
- iNaturalist uses the photo and your location to give its best guess at your photo.
- View the suggestions and compare to your photo
- Select one you think is correct.
- If you are unsure, you can select the suggested tribe/family.
- This will bring you back to the Details page, click the check mark at the top right to save your observation.
